

INSURANCE COVERAGE

OVERVIEW

Hellmuth & Johnson's insurance lawyers in Minneapolis have unparalleled experience in the areas of insurance law and regulations, property damage, and insurance claims for both individuals and businesses. Hellmuth & Johnson's insurance lawyers are also at the forefront of seeking insurance recoveries for cyber-attacks and ransomware.

Their knowledge covers a wide range of insurance matters from coverage disputes, insurance appraisals, loss investigations and first party insurance litigation to legal services related to large loss insurance claims, including:

- Storm damage claims, including wind, hail and water damage
- Fire claims, including electrical, gas leaks and explosions
- Cyber-attack and ransomware coverage
- Business interruption claims
- Ice dam, roof leak, and sewer backup claims
- Coverage disputes

Our insurance coverage and claim attorneys have resolved numerous insurance claims, and our success in insurance-related matters is due in part to the number of our attorneys who once worked in insurance defense.

Moreover, our attorneys also draw on the firm's experience in related areas, including property law and construction law.

We work extensively with property management companies, public adjusters, and property owners to maximize recoveries for property damage, business interruption, and losses under a variety of other coverage. We also assist in locating local contractors to provide loss estimates, testify at appraisal hearings and assist in the adjustment process.

Our experienced insurance coverage attorneys in Minnesota are available to provide an initial consultation, at no cost, to discuss the legal implications applicable to your insurance claims.
